

## nCino Named No. 1 Best Place to Work in Financial Technology

26/02/2019

**For two consecutive years, Company recognized by SourceMedia for strong culture focused on putting people first**

WILMINGTON, N.C., Feb. 26, 2019 /PRNewswire/ -- nCino, the worldwide leader in cloud banking, today announced that it has been named the No. 1 "Best Fintech to Work For" by SourceMedia.

The annual ranking identifies fintech companies with exceptional workplace culture. To be considered, companies across the U.S. participated in a two-part survey to evaluate their policies, practices, benefits and demographics, and measure the employee experience. nCino stood out for its employee recognition and appreciation efforts, wide-spanning community service initiatives and emphasis on employee health and wellness. This is the second consecutive year nCino has been named to the list, having earned the No. 3 spot in 2018.

"We are humbled and honored to appear at the top of this list," said Pierre Naude, CEO of nCino. "The fact that this ranking is based largely on employee feedback is particularly meaningful. At its core, nCino is focused on empowering employees so they bring their A-game every day and continue to build a truly innovative and transformative product for the banking industry. Our culture is a key part of our success and growth, and this award reinforces that nCino truly is the best place to work in financial technology."

nCino currently employs more than 600 people worldwide in its headquarters in Wilmington, N.C., as well as offices in Sydney, Toronto and London. In addition to a comprehensive health benefits package and generous paid annual leave, nCino offers employees a variety of professional development opportunities, organized health and wellness activities and plenty of chances to creatively collaborate with events like internal hack-a-thons.

"Every one of the companies named to SourceMedia's Best Fintechs to Work For list demonstrated a culture focused on supporting and engaging employees," said Richard Melville, Group Editorial Director at SourceMedia.

Companies recognized on this year's list operate in and serve companies and consumers in a wide range of financial services including banking and mortgages, insurance, payments and financial advisory. The 2019 list included 50 companies and was published by SourceMedia brands American Banker, National Mortgage News, PaymentsSource, Financial Planning and Digital Insurance. To qualify for participation, companies had to be an organization that provides technology products, services or solutions that enable the delivery of financial services with at least 15 employees working in the U.S. and been in business a minimum of 1 year.
