

BOK Financial Transforms Commercial Offerings Through nCino Platform

June 1, 2022

Top 25 U.S.-based bank adopts the nCino Bank Operating System to provide further value to its client base

WILMINGTON, N.C., June 01, 2022 (GLOBE NEWSWIRE) -- [nCino, Inc.](#) (NASDAQ: NCNO), a pioneer in cloud banking and digital transformation solutions for the global financial services industry, today announced that [BOK Financial](#) is live on the [nCino Bank Operating System](#)[®], deploying nCino's [Commercial Banking Solution](#). This addition of nCino will benefit the approximately \$50 billion-asset enterprise bank, enhancing speed and convenience, and enabling its commercial banking business to further grow relationships in the digital era.

"The nCino Commercial Banking Solution is a cornerstone of our Commercial Division's future-state operating model. Its functionality will be utilized throughout our entire credit origination and management life cycle across our front, middle, and back offices," said Scott Andrews, Chief Operating Officer of the Commercial Division at BOK Financial. "We are already seeing the benefits in both operating efficiency across our teams and far greater access to data that will help us make smarter and faster credit decisions with materially enhanced reporting. We had tremendous partners at both nCino and Deloitte helping us deliver this initiative."

nCino's single cloud-based platform replaced many disparate systems within BOKF, creating a digitally enabled solution that streamlines its lending process from loan origination through underwriting and portfolio management. Working alongside teams from BOKF and nCino, Deloitte delivered the nCino platform on time and on budget, providing project management, design, development, and testing to ensure BOKF's implementation went efficiently.

"This project was successful thanks in part to the commitment shown by all three teams," added Jon Guerena, Managing Director, Deloitte Consulting LLP. "BOKF's willingness to evolve its operations and streamline its commercial business with nCino's cloud-based platform will help them deliver the improved, personalized experience they've been searching for. We look forward to our continued work with both BOKF and nCino, and we are excited to see the impact this implementation has on their clients and their people."

"We're very proud to deliver BOKF a platform that allows them to build stronger relationships with their clients. Consumers expect a high level of personal service across their institutions, and the implementation of the nCino platform is just another step on that journey, where bankers now have a 360-degree view into the entire client banking relationship," said nCino's Senior Vice President of Enterprise Banking, John Moonshower. "We are proud of all we've achieved together thus far and look forward to a continued strong relationship."

About nCino
